

BOSCO MUN, 2024

8th & 9th AUGUST

A video has been released by a person who is claiming to be Tony Jalal, an official attached to the office of the president of Lebanon- Camille Chamoun. In the video, he admits to having worked for the Najjadeh Party in their conversion campaigns and expresses regret for the same with tearful eyes.

“I withered my life away by working for that blasted party and I hurt the lives of hundreds of innocent christians by thrusting proselytism upon them. Camille Chamoun, that megalomaniac has threatened my family and has coerced me to destroy the lives of these people. I have only recently committed the outrageous atrocity of having decapitated an american. 4 more people were put to death by my hand. The president wishes to remain in power and he knows that the people will not have it. He wants assistance from the Americans and they will not give it unless favors are returned to them. The Americans want to meddle in the affairs of Lebanon and Chamoun has allowed it. I cannot bear this anymore.”
